## Customer Reviews

The word dry gets thrown around a lot these days but as far as my knowledge will take me it can get no drier than this text book. Still a great read and there is a lot of insight here very much worth every penny.

Print was so small my husband wasn't able to read it. Total waste of money. If he could have read it I'm sure it would be worth what we'd paid for it. I bought him a Kindle so we can try it on there. He really was looking forward to reading the book. We have no problem with the book or condition or the order itself in any way. It's just the size of the print.
