Customer Reviews

I love Regency Romances and have had a hard time finding someone to measure up to the greats (Austen, Heyer, even Carola Dunn) and was excited to try this contemporary author. The story is fairly well written, though it has lots of references to the other stories in this series. The references are fairly easy to follow, but make for a confusing start to the book. The story itself is fair, but a little rushed-most of the book centers on the time before the characters are married, but most of the action happens after-it makes the end seem really rushed and doesn't allow for very good character completion of the H's brother or mother. The sisters and the h in this book also do NOT in any way conform to the behavior of the time period-the way it seems that they have all entrapped their husbands by manipulation or idiotic behavior (as in this book). The author seems to try and paint the picture that the girls are somehow victims, but their actions are totally inappropriate for the time

period and would have damned their standing in society if they had actually behaved as they are portrayed. I was also shocked by the several sensual scenes in the book and by the long, drawn out sex scene. It was almost like the author was trying to give a biology/anatomy lesson in the middle of the book-not enjoyable. I hadn't seen anything to suggest the level of sexual content in the reviews for this book and now realize that I should have looked at some of the reviews for the other books in this series, which sound every bit as descriptive. Overall, I was not a fan and will not read any more in this series. I gave the author two stars, because she can write well, but needs to do more research before writing historical pieces!

Basically, the book reads like "Georgette Heyer Mad Libs", with a side of "Bronte Sisters Refrigerator Magnets". It's not that everything that happens here has happened before in other books - one of the pleasures of genre reading is watching an author spin old characters and plots into shiny new gold. Unfortunately, things happen in such a way as to leave me going, "Wait - what?!?!? I thought you couldn't stand her two chapters ago - after one makeout session (and yes, it's not just a romantic kiss, it's a makeout session) you're head over heels in love with her? Worse, she's gone from strong-willed young woman to submissive milksop?" I love a good Regency - Georgette Heyer is one of my favorite authors, and I'd love to find a new writer who can write with her level of wit, romance, character and plot. This book, though? Sadly, isn't it....

Deneane, for the most part, has pretty likable characters. Charity and Amity played off each other really nicely. My one complaint is that all of Deneane Clark's antagonists are crazy people who resort to kidnapping and attempted murder. Sure, it makes for an interesting read. But when 3 people in the same family have had to overcome those kinds of obstacles in order to get married? Just a little intense for one family.

Sometimes, you want a sweet, very little complicated story. This is It! Loved Lachlan, and Charity, is too cute! Meaning, she says what she thinks, never loses her joy, and I can identify with her easily! I had just read a book, that left me frustrated with it's ending, this is exactly what I needed. We just went through a hurricane, and sometimes you just want everyone to be happy! I highly recommend! Thanks! Enjoy!

Not what I expected when compared to the first story of grace and Trevor. Too much animosity between Lachlan and charity. Miscommunication and animosity between the characters are ok if

they are funny or leads some where. Bedside that the story was an ok read.

I absolutely love this book!! I fell in love with the feisty heroine from page 1. This not a book that you will want to put down till you are completely done reading. This is the first book I have read by Deneane Clark but rest assured it will not be my last book that I read by her. This book engaged me from the beginning and wouldn't let me go till I finished.

Nice story. The hero was very likable but it was difficult to like Charity. She was so stubborn that she almost destroyed her chances for happiness. And she was a little too naive to be believable. And all the loose ends tied together too quickly and neatly.

Got me to buy it with their 1st meeting. So funny. You're teeth are beautiful! She said in a tone that sounded accusatory. I suppose you dont have an unsightly wart or a disfiguring scar? Guess not. Lol. It's well written, great characters. A few funnies, a couple of bring out tissues moments. The ending could been better. But oh well.
